BASIC-ABSTRACT:

The rolling curtain includes a reflecting curtain of compound cloth
with 95
percent reflectivity metal film to shield wind-shield during stopping
for
preventing peeping and blocking sunshine. Its powerful chuck with
turnable
angle can fix the curtain at the lower part of the windshield during
driving to
prevent sight line of driver from being blocked.

USE - Can be also used for other transport devices.

ADVANTAGE - The ball bearings at two ends make the winding and unwinding flexible and light.
